

NPUSC

Device Insurance Plan

OVERVIEW

Available for new or used devices, New Prairie Device Insurance Plans are specifically geared to provide peace of mind to schools & parents of students who use iPads in a learning environment. Coverage includes two (2) damage claims per school year: accidental drops, electrical breaks, surges and more. Damage deemed intentional however, will not be covered. Insurance can be purchased through the 2024 - 2025 registration process.

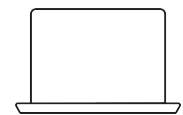

Per the Student Network & Internet Acceptable Use and Safety, device insurance is offered by the Corporation to students at a nominal charge. If a student purchases the device insurance they are allowed two (2) damage claims per school year after which they will be charged the current repair or replacement cost for any subsequent damage. Costs will be evaluated and set by the Treasurer's Office, in conjunction with the Technology Department, at the start of a school year. The insurance coverage does not include the iPad case, power cord, or power adapter. In the event that a device is unrepairable and replaced in like, the initial coverage and agreement will have been deemed fulfilled and all obligations completed. The previous policy does NOT transfer to the new device. Therefore a new policy will need to be purchased on the replacement in order to continue coverage.

***Please note that theft or loss are not included in the insurance program.**

Two (2) Damage
Claims Per School
Year

No Deductibles

Device Insurance Plan
